Prescription for suicide starvation  
Slow death  
The memories of the grave surround you  
Corruption on your breath  
Mistaken compassion for living things  
Convenient deception  
Conceals your obsession with suffering  
Worship the slaughtered lamb  
I hate weakness  
I hate weakness  
I  
I hate vegans  
I hate vegans  
I  
Hunters teeth once deadly now rotten  
In famine you consume your own flesh  
Live by the sword die by the sword with honor  
Live as cattle die as cattle disemboweled  
I hate weakness  
I hate weakness  
I  
I hate Jesus  
I hate Jesus  
I hate  
I hate
