Floating, into the dark  
Falling, dreams fall apart  
I long for, the light of the stars  
I watch the sky as it falls  
Caught in a cage I've made myself  
Self made cage  
Looking up on the planet rain  
End of our age

I can not take it on my own  
I can not take it all alone

As the world comes to an end I ask  
Will you stand here by my side and cry with me?  
And as it all falls apart I need  
To know that you'll stay and die with me

Breathless, turning to stone  
Helpless, don't leave me alone  
They're fighting, the voices in me-  
Keeping me from fighting free  
But in your arms they all fall in silence  
And let me sleep  
In your voice a soothing song  
Just let me sleep

I can not take it on my own  
I can not take it all alone

As the world comes to an end I ask  
Will you stand here by my side and cry with me?  
And as it all falls apart I need  
To know that you'll stay and die with me

In the end all I do is a lie  
... In the end...  
In the end all I do is a lie  
... In the end...  
In the end all I do is a lie  
... In the end...  
In the end all I do is a lie

... In the end...
