### "Roadkill"

Visit "[Roadkill](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We're heading for failure  
We're all gonna die  
It's the code of the roadkill

It's the call of the night  
Our force is stronger than ever  
And the flames grow higher now

And there's no way to make us stop, NO!  
We're going down

Crawl through Gehenna  
It is crossing our path  
Some will be crushed and some will still stand

Whatever the cost we'll deliver  
And we'll all be remembered forever

Raise your glass for all the roadkills on the side of the  
road

Our brothers who died by death 'n' roll  
In the end we all will be roadkills out in the cold  
Sister, you wen and sold your soul

May God show mercy on your soul

We're in for the pleasure  
We're in for the ride  
It's the way of the living

It's the way we will die  
Our anger is stronger than ever  
And our bounds are tighter now

And there's no time to get away, NO!  
We'll take this town
