Screaming - in silence you must carry  
your secrets down this lonely eerie wicked road  
Screaming - you're oh so battle weary  
They say it's lonely at the top

Let alone when you hit the ground

All ablaze - you're rushing down the tightrope  
With your only mean companion ticking away

You gotta stand your ground  
Forge into a fiery fierce tomorrow  
Stand your ground  
At the speed of light into the void  
Hell is what you've gotta make it through  
Until it's just the cross and you

The cross and you  
The cross and you

Screaming from behind the mask of reason  
The cautionary voice that shatters your brain  
The silvery gleam of tomorrow  
Keep accelerating in quest for a break  
Until you realize that it's too late

All ablaze - you're rushing down the tightrope  
With your only mean companion ticking away

You gotta stand your ground  
Forge into a fiery fierce tomorrow  
Stand your ground  
At the speed of light into the void  
Hell is what you've gotta make it through  
Until it's just the cross and you

All ablaze I plough my way  
Till I am allowed to fall  
I pay my dues on a ship of fools  
I kick and scream and fight and crawl

Get a life! Don't waste time!  
As we drown the voice inside  
Till the moment I awake  
When it's just the cross and me

You gotta stand your ground  
Forge into a fiery fierce tomorrow  
Stand your ground  
At the speed of light into the void

You gotta stand your ground  
Forge into a fiery fierce tomorrow  
Stand your ground  
At the speed of light into the void  
Hell's the shortcut you're rushing through  
Just the cross and you
