Look at me, into the eyes of a stranger  
If they see us heads will roll  
Look at you, your life's a failure  
And the dolls have taken control

I'm alive and your ending shines  
I've never felt before that life's this grand  
'Though blood is drawn I chase the dawn  
The view is pretty from where I stand  
On the battlefield, you'll be my shield  
I'd like to love you but you turn to sand  
I choose to be your enemy  
I'm just pretty if you understand

Slaughter me; I'm in need of killings  
And tender love is all we need  
Slaughter me, so I can lose the feelings  
That caresses me until I bleed

They masturbate, just want to mate  
Seeing your face, they seal your fate  
They've tried to love, I'll rise above

You fall to the ground deep below  
You're my rock star fantasy  
You're everything I want to be  
You are my star  
My way of saying: "I hate myself"

Pray for me, He won't hear me  
He's too busy being a god  
Pray to me, no salvation is easy  
When you're caught up loving a fraud
