With the taste of your lips

With the taste of your lips

Iâ€™ll die
And fall
In heaven
You cushion the blow

With the taste of your lips

No power
I have
You have taken it all

Yeah
Yeah

My kingdom for your lips

Yeah
Yeah

Round the last touch Iâ€™ll ever feel

All I want is the
Last touch
The Last kiss
On a high
With the taste of your lips

It doesnâ€™t matter
If we stay in touch
Or fade rough
I want to die
With the taste of your lips

You You
Kiss baby
You You
Right now baby

You You
Kiss baby
You

With the taste of your lips

Inside
Delight
No right
Do I have to deny

With the taste of your lips

You free me
From my prison
You have broken me all

Yeah
Yeah

My kingdom for your lips

Yeah
Yeah

Round the last touch Iâ€™ll ever feel

All I want is the
Last touch
The Last kiss
On a high
With the taste of your lips

It doesnâ€™t matter
If we stay in touch
Or fade rough
I want to die
With the taste of your lips

You You
Kiss baby
You You
Right now baby
You You
Kiss baby
You

Bridge

All I want is the
Last touch

The Last kiss
On a high
With the taste of your lips

It doesn't matter
If we stay in touch
Or fade rough
I want to die
With the taste of your lips

Last touch
Last kiss
Taste of your lips
Stay in touch
Fade Rough
Taste of your lips

You You
Kiss baby
You You
Right now baby
You You
Kiss baby
You
