baby come back, hear me out
is there any way to reach you now
sitting on the edge thinking out loud
maybe there is something that you know
something that only you know

crying out loud, i wanna do good
i do it all for you if i could
the way it looks now from where i stood
maybe there is something that you know
something that only you know

but

running away isn't the way
cause if you want it bad enough
get it if you dont give up
running away isn't the way
cause if you want it bad enough
get it if you dont give up
if you want it bad enough
if you want it bad
if you want it bad
if you want it bad enough
if you want it bad
if you want it bad
if you want it bad enough

take a little time think this through
see it from another point of view
putting myself in any ol shoes

maybe there is somewhere that you go
somewhere that only you go

trying to move on all the way down
waiting for your head to hit the ground
whatever you're in we'll figure it out
maybe there is something i do now
that wherever you go

running away isn't the way

cause if you want it bad enough

get it if you dont give up
running away isn't the way
cause if you want it bad enough
get it if you dont give up
if you want it bad enough
if you want it bad
if you want it bad
if you want it bad enough
if you want it bad
if you want it bad
if you want it bad enough

all in your head
all in your head
it's all in your head
you can fight this illusion
all in your head
all in your head
you can fight this illusion
all in your head
it's all in your head
you can fight this illusion
all in your head
it's all in your head
you can fight this illusion

running away isn't the way
cause if you want it bad enough
get it if you dont give up
running away isn't the way
cause if you want it bad enough
get it if you dont give up
if you want it bad enough
if you want it bad
if you want it bad
if you want it bad enough
if you want it bad
if you want it bad
if you want it bad enough
