Brown skin look like I'm Philippino
Big cup filled up with Pelegrino
Probably after try it if you let me hold the clico
But we almost start a riot when we do the show and
chico
No, I had a dream that I was hide in Puerto Rico
With the lady named Helena and a puppy named
Domingo
Wow woke up and transform like I don't buy bismo
Now get a mother fucking bottle pop the star home

Hook:

I'm like up in that ass with a double dose
Bubbles in my glass raise another toast
Your own... going big, we're going for roll
Get it how you live
Just that just that dope dope dope dope
Just that just that dope dope dope dope
Just that just that dope

Whip swinging keep their heads bangin
Super large going hard in the pain is that
Y'all well I ain't working in the day time has been late
night
We the come in oviance of the generation to elevate
the conscous
Can't just can't blame must for tryin
To get an Asian tryin stop that, I'ma cock back blow I
am
Fuck around and get the belt oh I ain't fresh see iron
... white teeth but increase in the middle of the lay got
the way down
I would try to get a fake idea my... moving that way
I'm back in the day when I was young we used to steal
from the store
And sell drugs sometimes it's like you got the deal
I'm not to get anymore... from the floor when you born
But nowadays I keep it cool I'm not to tell anymore
So tell them party people get their ass on the floor
... it's life if they let me dance
Happy if I see some thick bodies is some stratchin past
Ca-ca-ca-catch me chasin, dollars make em nicko flips

So when your local who just tryin to holla rest some
pickle chips
Listen in the triple six, y'all be smoking snicko frips
We'll be on that shit that have your girlfriend haven't
gigo fifth
Bitch I'm happy like I'm winnin took his...
Tryin to see the planet earth and I mean every look in...
But me in time I'm west coast and like the taco trip
Now get your mother fuckin bottle up and...

[Hook:]

Take a picture lady maybe I'ma tag it
Your baby daddy is angry I'ma baby mami magnet
But all I really so want is a vegetarian pizza
Some master berry and refind in the chick that sound
some south shit
I'm chillinlong as I got a place to stay
A 64 aunt superior water every day
Is nothing standing in my way
If you feel that then holla back,
Now get the motherfucking bottle crack
Just stole the hoe
Back up in that ass with the double dose
