Put it on to me  
I can hear you baby  
Coz we've been here once before

I can feel the heat  
Don't you feel it baby?  
And it makes me want you more

Didn't you tell me yesterday  
We gotta take it all the way

We're funkini' up and I like it  
Now you're getting hot  
Give it all you've got  
We're funkini' it up and i like it  
Now you're burnin' up  
Never gonna stop  
Coz i like it, ooh,  
Don't you know i like it, ooh

And now you're close to me  
We got to move together  
And i've never felt so sure

Your sexuality,  
I'm in a love hangover  
The rhythm of your body is the only cure

Carried away like butterflies  
Feeling the music takes you high  
You know we're...

We're funkini' up and I like it  
Now you're getting hot  
Give it all you've got  
We're funkini' it up and I like it  
Now you're burnin' up  
Never gonna stop

We're funkini' up and I like it  
Now you're getting hot

Give it all you've got  
We're funk'in' it up and I like it  
Now you're burnin' up  
Never gonna stop

Coz I like it, ooh,  
Don't you know I like it, ooh  
I like it, ooh,  
Don't you know I like it,  
I like it

Instrumental Break

Go for the stars and feel the sky  
We gotta do that everytime

We're funk'in' up and I like it  
Now you're getting hot  
Give it all you've got  
We're funk'in' it up and I like it  
Now you're burnin' up  
Never gonna stop (repeat 'til fade)
