There's a chill in the air
Looks like the winter is returning
You know, I have to stay
Until I find a way to get through this

Nothing ventured
Nothing gained
Now there's no healin'
Without some kind of pain

Hey baby, things have got to change

Here comes the rain
No need to hide
I know the sun shines
On the other side

Oh, let the storm roll over me
Just tear these walls once and for all
And set me free
Here comes the rain

I left it all to chance
Maybe the odds were all against me
Now it's outta my hands
But I will see it through if you let me

Nothing ventured
Nothing gained
There's no healin'
Without some kind of pain

Can you tell me baby?
We can't go on this way

Here comes the rain
No need to hide
I know the sun shines
On the other side

Oh, let the storm roll over me
Just tear these walls once and for all

And set me free
Here comes the rain

We're the truth behind the lie
All the dreams we left to die
We're just rivers runnin' dry

Here comes the rain
No need to hide
I know the sun shines
On the other side

Oh, let the storm roll over me
Just tear these walls once and for all
And set me free
Here comes the rain

No need to hide
I know the sun shines
On the other side

Oh, let the storm roll over me
Just tear these walls once and for all
And set me free
Here comes the rain
