*[Mark:]*

You said you need a groom this evening  
I told you I'm leaving  
Till you begged me to stay  
You got your high heels on to tease me  
You promised to please me  
Then you take it away

*[Mark:]*

The fire is fading baby stoke it up  
And let it roll up your sleeves  
Why can't you tell me that we're breaking up  
And that I need space to breath

*[All:]*

If you can't wait any longer  
Let it out  
Let it in  
If you think time will make you stronger  
Let it out  
Let it in

*[Mark:]*

Let it in

*[Paul:]*

You used to keep me up till the morning  
Keeping me warm untill I had to be gone  
And now you can't find a room in your head  
You see you got out of bed  
Well that my coffee ain't on

*[Paul:]*

The door was open do you locked it up  
And then you threw out the key  
Why can't you tell me that we're breaking up

That I need space to breath

*[All:]*

If you can't wait any longer  
Let it out

Let it in  
If you think time will make you stronger  
Let it out  
Let it in

*[All:]*  
Let it out  
Let it in  
I can't wait  
Let it out  
Let it in  
I can't wait

*[All:]*  
If you can't wait any longer  
Let it out  
Let it in  
If you think time will make you stronger  
Let it out  
Let it in

*[All:]*  
Let it out  
Let it in  
I can't wait

*[All:]*  
If you can't wait any longer  
Let it out  
Let it in  
If you think time will make you stronger  
Let it out  
Let it in

*[Mark:]*  
Let it out

*[Paul:]*  
No I can't wait  
Till you let me in  
I can't wait

*[Mark:]*  
No I can't wait  
You got to let it out
