Living the dream

Where have you been all of my life?  
Where have you come from?  
Is this your first time too?  
It's like I've known you in some other lifetime  
We're apart of the great plan.  
Like two stars that shine

I stood here watchin' , while it only happened to friends  
Now I don't have to pretend

Chorus

I can't believe we're living the dream  
We're digging that scene, we finally made it through  
the fire  
Something 'bout you blows me away, like night over  
day  
We kissing the loneliness goodbye yeah

True love, true love, and baby could this be  
True love, true love happening to me?

I've been waiting all of my life,  
Anticipating with every dream every night  
Destiny's a moment we all share in time, love is the  
message  
And I know I've got mine, - - - , - - - , - - - , - - - .
