Uh, what it do
I just wanna chill a little and get blue
I just wanna post it, and kick it with my crew
I just wanna post it, and kick it with my crew
Bitch tell me what it do

8 to the 1, do you see me
Used to be young now I'm young barcelini
Got a buzz off my cd, cause I shot off the tv
And I put down the perking, and I put in some working
Now the girls wanna see me, and send messages
With pics of themselves, and their bare chest bresteses
And then their very next question is
Adam can you show me how dope your average sex
session is?
I just laugh and be like yes it is
Learn something new every second
I wonder what my next lesson is
I'm a fucking bay rapper, bitch
I can't even describe how intense my profession is
Still treat people equally, but keep this on the do man
I still live illegally, I wanna roam peacefully
So if you don't like me, don't fight me
Just do like my ex and don't speak to me
We get the problem solved easily
It's big shit popping, don't trip if it's measily
Recently, shit man, everything is straight ether
Now let me geek to the sound of the speaker
To the sound of the speaker, to the sound of the
speaker
To the sound of the speaker, to the sound of the
speaker
To the sound of the speaker, to the sound of the
speaker
Oh, oh, oh yeah, 1 corn 6 heads on the ...
And I'ma sip this bitch, bitch I really don't care
Just put my beam loud, throw it in air, yeah

Uh, what it do
I just wanna chill a little and get blue
I just wanna post it, and kick it with my crew
I just wanna post it, and kick it with my crew

Bitch tell me what it do

I post up like a stamp,
Waiting for my turn like the dmb
So I can blow and burn like tnt
He envy, he does too
Life's a fucking maze tryina weave us through
Got my hands to the fans giving 3 plus 2
I'm on my a game, you a d plus do
Smart enough, I fuck with everybody
So you know my market up
Got my canabbis...if you wanna spark a blunt
I'll stick with the bump
He face Johnson, chicken like flonson
Worst like malando and I'm magic like Johnson
My habit is haunting and it never go away
I'm stubborn as a bull, I'm a tourist so ...
Have a partner names hose, we used to blow jays
Chase hoes all day, in the middle of the city
Not talking, sole,
Okay, cause what I'm after, a money hungry bastard
But the ... getting high and ...hoe

To the sound of the speaker, to the sound of the
speaker
To the sound of the speaker, to the sound of the
speaker
To the sound of the speaker, to the sound of the
speaker
Oh, oh, oh yeah, 1 corn 6 heads on the ...
And I'ma sip this bitch, bitch I really don't care
Just put my beam loud, throw it in air, yeah
Uh, what it do
I just wanna chill a little and get blue
I just wanna post it, and kick it with my crew
I just wanna post it, and kick it with my crew
Bitch tell me what it do.
