## "My Lie"

Visit "[My Lie](#)" on MotoLyrics.com

I'm not the only one, who has looked to the stars,  
In peace, in fear, in wonder, inside  
I'm everything you're not  
I'm everything you want  
I'm everything you've been  
I'm everything you've seen  
I'm not the only one, but I'm also a part,  
Of you, of us, of nothing, of time

Time bound to your thoughts

Travelling through nothing  
Living in my lie  
A door has opened to the ocean's heart  
We're all within  
Drops of water tied to streams  
No one can win

Why do you tend to fear all the things that I love?  
The dark, the void, the depths, the end  
It's coming anyway  
It's coming our way  
It's coming to your door  
It's you it's coming for  
Why do you tend to fear to show what you hide,  
From me, from us, from nothing, from time

Time

There's nothing here to see  
There's nothing here for me  
There's nothing here to win  
There's only what's within  
You are the only one just like everyone else  
One wave, one thought, one world, one loss

Time is nothing but an empty void  
Time bound to your thoughts
