The carnal sins of desires are dancing in my mind  
The blackened earth has given me knowledge  
To summon Thy name, wicked daemons  
Praise to Thee, Queen of Death  
Thy beauty has no words to explain Thy presence!  
Spread Thy leather wings and possess my body  
With the everlasting Lust

Queen of Death, rape me, take me

Kiss me with Thy morbid lips, like fire  
they're burning my flesh!  
Thou turneth my pain into never ending pleasure!  
Rape me with Thy demonic forces!  
Black beauty of dark desire!  
Thou bringeth out the Devil in me!  
I shall make a proper sacrifice to bless Thee  
Daemons!!!  
Hearken and remember!

Queen of Death, rape me, take me

Prevail thy presence in the lonely night  
When the moon is shining in the blackened sky!  
Hail to Thee, beloved Daemons,  
Queen of Death! Hearken and remember!
