Dreams, dreams, dreams
Dreams, dreams, dreams

Another day, here I am
Another challenge, I try again
Pick myself up off the ground
You'll never get there
Is what you always say
But what do you know anyway
I will get it through

I traveled to far
To turn around now
Above all what I'm fighting for
I know, in my heart
That little voice in my head
Says, keep on going
You're gonna make it

Dreams
They are awoken because
They are the reasons
We still believe in hope
You gotta do, what it takes
Just don't be afraid
You'll learn along the way
Take it day by day
You can find your place
In this journey of life

The day is here
The past is gone
A brand new day
Has just begun
Standing in the sun
Soaking it up
Yeah, yeah
Always give
More than you take
Open your heart
Don't let it break

You have to learn the truth
Some-some day

(Ahhhhhh)
The future is near
Feeling the fear
But then again,
You have to learn
One step at a time
Now matter how you try
You'll feel the faith
You'll the touch the sky!

Dreams (Ohhhhhh)
They are awoken because
They are the reasons
We still believe in hope
You gotta do, what it takes
Just don't be afraid
You'll learn along the way
Take it day by day
You can find your place
In this journey of life (In this journey of life)

Open your eyes
This dream is your legacy
The sky is open wide
The darkness is the light
You'll have no more tears to cry
And we will find a way
To find a new day!
Ohhhhh yeah

Dreams (Yeah, yeah)
