I should have been there should have made it by now
But I'm down on my knees when nobody's around
Ya I tried to be strong, but I lost it somewhere
In the midst of a dream I forgot about reality
And it hit me real hard
Tears make it hard to see
Will I ever get there?
Only God knows, gotta get it somehow

If you want it you can get it
If you choose it don't regret it
If you feel it make it real
It's what you wanted don't forget it
When you find it don't rewind it
Love infuse it and you're starting to grow
(Everybody gets as far as they go)

Say what you want, but mean what you say
Do what you will, but go all the way
Be who you are and don't be afraid
Reach for the stars and you're gonna get it someday
Common and take it from me
All your dreams will become realities
Just believe and you'll see
You're gonna get there

You're gonna make it one day

If you want it you can get it
If you choose it don't regret it
If you feel it make it real
It's what you wanted don't forget it
When you find it don't rewind it
Love infuse it and you're starting to grow
(Everybody gets as far as they go)

Another story of a girl out in the modern world
Got inner beauty then ya gotta let it girl
Set your mind, tell your mind you're gonna get there
Pick up yourself girl, you're gonna come true

If you want it!

If you feel it ya ah!
When you find it!

If you want it you can get it
If you choose it don't regret it
If you feel it make it real
It's what you wanted don't forget it
When you find it don't rewind it
Love infuse it and you're starting to grow
(Everybody gets as far as they go)
fuck off
