Your smile
Gets me every
Single time I see you
Your eyes take me away

I don't... really know
What this is gonna lead too
But it's like I'm floating in space

You take me somewhere that I've never been before
There's a whole new place waiting
When you open up the door

Your out of this world
I knew that you could make it
Didn't have to fake it
Your never coming down

Your out of this world
Can't get any better
Gonna last forever
Keep your head up don't look down

Your out of this world
Out of this world
Your out of this woorld
Out of this world

The stars
Like diamonds up above the headtop fallin
I know
That wishes come true
(Wishes come true)

Your voice
Across the universe
You were calling
Like a song from out of the blue

We're flyin' so high
We're almost at the top
And as long as we're together

I never wanna stop

Your out of this world
I knew that you could make it
Didn't have to fake it
Your never coming down

Your out of this world
Can't get any better
Gonna last forever
Keep your head up don't look down

Your out of this world
Oohh yeaaa Out of this world

So many dreams to fly to
And I'll be right beside you
We're getting closer to the sun (We're shining)
We'll let the moon astound us
A milion stars surround us
Wishing on each one

Your out of this world
I knew that u could make it
Didn't have to fake it
Your never coming down

Your out of this world
Can't get any better
Gonna last forever
Keep your head up don't look down

Your out of this world
I knew that u could make it
Didn't have to fake it
Your never coming down

Your out of this world
Can't get any better
Gonna last forever
Keep your head up don't look down

Your out of this world
Out of this world
Out of this world
Out of this world
