

Aqua "An Apple Day"

Visit "[An Apple Day](#)" on MotoLyrics.com

You know an apple a day
Won't keep the doctor away

Welcome to the cliches
Welcome to the part
Where we wanna finish
What we can't start
Come and get me

Just don't miss the water
Until the well is dry
You got to learn walking
After you can fly
Come and get me

What goes in, will get out
What goes up, comes right down
We go up, we go up, we go up

You know an apple a day
Won't keep the doctor away
Were never taught what we teach
And won't practice what we preach
You know an apple a day
Won't keep my troubles away
Once bitten bye, bye
All the cliches is here to die

Just eat all the people
On your way up
Cause they will eat your heart out
On your way down
Come and get me

Start what you can't finish
Stick to what you can't
Life is here to help us
Get things out of hand
Come and get us

What goes in, will get out
What goes up, comes right down

We go up, we go up, we go up

You know an apple a day
Won't keep the doctor away
Were never taught what we teach
And won't practice what we preach
You know an apple a day
Won't keep my troubles away
Once bitten bye, bye
All the cliches is here to die

Cause you are what you're eating
Don't stick to what's true
You are what you're eating
Let it come as it came

We are what we are
What's build up will fall
Do what you want and be happy, be happy, be happy

You know an apple a day
Won't keep the doctor away
Were never taught what we teach
And won't practice what we preach
You know an apple a day
Won't keep my troubles away
Once bitten bye, bye
All the cliches is here to die

Cause you are what you're eating
Don't stick to what's true
You are what you're eating
Let it come as it came

We are what we are
What's build up will fall
Do what you want and be happy
