Earth, Wind, Fire, And Air
we may look bad but we don't care
we ride the wind we feel the fire
to love the earth is our one desire
(to love the earth is our one desire)
love the earth it's only fair its one
big earth and we must share
we love the earth with all our fire
its in our souls our one desire

Earth, Wind, Fire, And Air
we may look bad but we don't care
we ride the wind we feel the fire
to love the earth is our one desire
(to love the earth is our one desire)
nature is our precious gift it will make
your sprits lift
we love the earth with all out fire
its in our souls our one desire

Earth, Wind, Fire, And Air
we may look bad but we don't care
we ride the wind we feel the fire
we love the earth is one DESIRE!
(Ohhhhhhhhhhhhhhhhhhhhhhh)
