### "Changing Ships"

Visit "[Changing Ships](#)" on MotoLyrics.com

On restless seas our wooden ship has blown  
Like a pebble in a stream it has been thrown  
Above the mast there flew an albatross  
The compass smashed, now all directions lost

Changing Ship  
Leaving this time  
Sailing new seas  
Leave this behind

The captains mind was in confusion lost  
He opened up the door at such a cost  
And flood the ship to drown the rats below  
We're sinking fast this ships out of control

Changing Ship  
Leaving this time  
Sailing new seas  
Leave this behind

(GUITAR SOLO)

Changing Ship  
Leaving this time  
Sailing new seas  
Leave this behind

Leave this behind  
Won't it be fine  
Won't it be fine

New ship sets sail, brave new world  
New ship sets sail, brave new world  
New ship sets sail, brave new world
