The writer of this endless book  
Is writing her last episode  
But we are always living  
The last page

A harvest of a new sunrise  
Is coming fast to save the world  
With all the prayers  
We have craved for

Oh, spread your wings  
Fly beyond  
Infinity  
Touch the sun  
Feel the heat  
You have now your conquered  
Liberty

Spirit of an era with a bless of motherhood  
Defend and all remains  
Angels are the keepers of the justice and the good  
The soldiers of our reign

The freedom tale that's alive  
Brings passion that unite us all

Frontiers broken

By the will  
Even laws are now in vain  
Horizon is the same for all  
Now mankind is ready to share  
Love and heal

Oh, spread your wings  
Fly beyond  
Infinity  
Touch the clouds  
Top of hills  
You have now your conquered  
Liberty

Affection and forgiveness are the secrets to the might  
We need them side by side  
Powers of creation will break into mankind's heart  
We'll rise the saviors' pride

Unbreak the bridge  
Unite the earth  
Everlasting sky  
Forever free  
Eternal soul  
Your Majesty Gaia.
