As the sign opens the seven gates  
To the seven world's,  
Darkness and horror  
Will fill the earth  
Fill the earth.

One power will get out of there  
As he'll come - Butchered  
The messenger of Arallu.

He takes the seven keys  
And chooses the seven Genii.  
The Genii are the soldiers

Of Jerusalem's spirit.

He'll take them to Jerusalem  
And will start the war  
The war on "megido mountin".

How it's over the god is dead,  
Our father, our master,  
Takes the burning earth.  
Then will start, the war of the end.
