Everything's clear when you're beside me
Breathing the air they won't allow me
Trying to share this piece of earth with you

Keep it all (Find)
Keep what you have to say until you're gone (What's
wrong with you)
Keep it all (Find)
It's not time for you to stay (What's wrong with you)
Keep it all
Keep what you have to say until you're gone (Until
you're gone)
Keep it all
You still have the time to blame yourself (Find what's
wrong with you)

Molding space
I see, I see you closing your eyes
You never thought how cold it feels when you're denied

Pain disappears when you're beside me
Breeze in the air that flows around me
Trying to shape this piece of earth for you (for you)

Keep it all (Find)
Keep what you have to say until you're gone (What's
wrong with you)
Keep it all (Find)
It's not time for you to stay (What's wrong with you)
Keep it all
Keep what you have to say until you're gone (Until
you're gone)
Keep it all
You still have the time to blame yourself (Find what's
wrong with you)

Yourself
