"Carry Me On"

I can't go on living in yesterday
Why do I long to live in yesterday
Find a way to you
Find a way to you
I know only you can carry me on
I know only you can carry me on
I can't replace the feelings of yesterday
I can't erase the pain from yesterday
I'll find a way to you
I'll find a way to you
I know only you can carry me on
I know only you can carry me on
Find a way to you
Find a way back home
I know only you can carry me on
I know only you can carry me on
