I see you standing over there
Cocktails and fingers through your hair
How about that
You like it like that
And poor boy seems so taken in
But I know your games are wearing thin
How about that
You like it like that

Still lighting up your dirty storms
Still laughing at all the same jokes
How about that (yeah)
You like it like that
Doesn't matter what you have to say
This ships already sailed away

Chorus
I don't really give a damn
Go and find another man
I don't wanna try and make it better
Never thought I'd let you go
Wasn't easy now I know
I don't think I could feel any better
So here's your last goodbye
Don't you pretend to cry
So here is your last goodbye
Don't you pretend to cry

No need for desperate alibies
You've always sucked at telling lies
How about that
What you think about that
Your still the queen of wannabes
Your mum will bring you to your knees

Chorus

Your tears they won't miss me
Your eyes they won't see me
Your lips will never kiss me
Your arms will never hold me
You thought I was the one but now I'm gone!

Chorus
