Awake in the darkest night  
I'm waiting for the Light  
Nightly colours slowly fading out

Searching for the strings of light  
Coming from the bloody skies  
Elusive need of mind

Awake in the darkest night  
With death by my side

Ruins of life  
Gather your might  
Ruins of the life!

And in this eternal fight  
When the reaper tears me apart  
Have to catch the glimpse of light

Walking through the ruins of live  
I must find the endless might  
'Cause I don't want to die...

And in this eternal fight  
Only strong will survive

Ruins of life  
Gather your might  
Ruins of the life!
