"Where There's Smoke"

Visit "[Where There's Smoke](#)" on MotoLyrics.com

I know she's out there somewhere tonight
Turnin' on the lightin' up some lucky coywboy's eyes
She's burning like a wildfire there's no chance of rain
Where there's smoke you'll find my old flame

In a world that stays up late at night dimly lit by neon
light
Where baby can be any lady's name
Where the music and the laughter flows cigarette
clouds are hangin' low

Where there's smoke you'll find my old flame
[guitar - fiddle]
She's always been the kind to stay at home
But carelessly I let her spend too many nights alone
You know a fire left unattended is a dangerous thing
Where there's smoke you'll find my old flame

In a world that stays up...
Where there's smoke you'll find my old flame
