"Red Eyes"

I can't
Seem to get a hold of this
This mess
Seems to be taking
Its grasp on every
Everything that we once worked for
And I can't bear to watch
Everything just fall around me,

And I've been struggling for so long
So long
And I've been
Looking for away
To make everything fall into place

And when the red glazes over my eyes
There's nothing anyone can say or do
Just you try and stop me
Try and stop what I've have become how I wish there
was a way.

And I've been struggling for so long
So long
And I've been
Looking for away
To make everything fall into place

Everything just fall into place
Every word I ever said
Is making sense again
When the red glazes over my eyes
There's nothing anyone can say or
Say or do

And still today I cannot tell
The dream's from nightmares anymore
And still today I cannot tell
The dream's from nightmares anymore
And still today cannot tell
The dream's from nightmares anymore

If you reject the ones you love,

You'll find yourself cold and broken again
If you reject the ones you love,
You'll find yourself cold and broken again
If you reject the ones you love,
You'll find yourself cold and broken again
If you reject the ones you love,
You'll find yourself cold and broken again
Stay Young Forever

You've done this to yourself or so, so it seems
You left behind everything
All your friends and all your family
Does it not feel slightly daunting
How you still sleep at night
When you must be able to hear them fight
It's all about you
All about you
All about the way you choose to live

You still put smoke in your lungs, despite not giving
enough
You still put smoke in your lungs, despite not giving
enough

How did it come to this

Is there any point to this, are you even listening to us

You still left everyone you loved
Crushed, broken, snapped straight in half
You still left everyone you loved
Crushed, broken, snapped straight in half

You made your choice now turn and get out
You made your choice now turn and get out

How do you sleep at night
It's all about you, it's all about you
How do you sleep at night
It's all about you, it's all about you

You still put smoke in your lungs, despite not giving
enough
You still put smoke in your lungs, despite not giving
enough

You left every one you loved
Crushed
Broken
Snapped straight in half
