I return to inner self  
I've got power, I've gained sight  
I've forgotten my fear  
It was a ghost of lies

I lived in a fake world  
And I was flying so high  
The dream dried my tears  
Living in my eyes

But hope and love just cannot die so young  
They've got to live forever  
You have to rise up and fight  
To break away and fly fly so high

Life dictates it's own rules  
If not agreed you can leave the game  
Maybe it's just an excuse  
Not to explore your inner self

What is this freedom?  
What is personality?  
Using stranger's rules you'll never know it

But hope and love can also die so young  
They've not to live forever  
Whose will has written this play  
Who's pressed that damned lie  
Into my mind

Where do you go?  
What is your freedom here?  
Do you know?  
You know...  
Hear the voice of soul  
It's the sign of hope  
Why do you go?  
Is freedom worth this price  
You win!  
And so?...  
Just retreat  
Cause you cross the social law

But dice is thrown  
It's my solution  
Too early for execution  
Mind revolution changes all.
