I don't think that this is good for you
I think that this will destroy you
But still you try
But still you try

Hello, can you hear me?
Knocking on your fucking soundproof walls
Did everything change when you left me?
Did everything change when you made it to the top?

-Chorus-
Today-
I don't know why
I don't know why

Today-
I don't know why
I don't know why

Look out! Can you see them?
Patting your back as you walk down the line
Did they all forget who you once were?
Or do they surrender from time to time?

-chorus-

I don't think that this is good for you
I feel like this will destroy you
but still you try
but still you try
