

Arden "Goodbye"

Visit "[Goodbye](#)" on MotoLyrics.com

We watched you die right in front of our eyes
All alone with broken phones we're up in smoke on
roadsides
And we feel so lost we're calling out for help
But it's too late

We can't turn back now
We miss you
We're sorry
We never wanted this to
We'll never forget you
But you knew that

We never thought it would happen this way

As time goes by on the highway back home
Memories are all we need going to our next show

We can't turn back now

We miss you
We're sorry
We never wanted this to
We'll never forget you
But you knew that

Goodbye

This is goodbye
You know we'll miss you
