So, you're walking out that door again.

You've told me goodbye for the 100th time.

I, ain't gonna fall for your tricks

No more, (no more), no more...

Baby just leave

I ain't gonna listen to you anymore

Baby just leave

Stop trying to reason with me

Baby just leave

It ain't gonna be the same again

Baby just leave

Just walk out that door.

Now, you've come back crawling to me.

I shouldn't have sympathised you.

I, ain't gona wait for you

No more, (no more), no more...

Baby just leave

I ain't gonna listen to you anymore

Baby just leave

Stop trying to reason with me

Baby just leave

It ain't gonna be the same again  
Baby just leave  
Just walk out that door.  
Why was I such a fool?  
Giving you a chance to stab me.  
Now you've blown your chance  
And I'm leaving  
Cause I ain't gonna wait for you.  
Baby just leave  
I ain't gonna listen to you anymore  
Baby just leave  
Stop trying to reason with me  
Baby just leave  
It ain't gonna be the same again  
Baby just leave  
Just walk out that door.  
No more, no more, no more.  
Ain't gonna wait no more.  
No more, no more, no more.  
Cause I ain't gonna wait no more.
