I always thought I'd have the answers
Nothing would get in my way
I always thought we would last forever
till my love changed
And all the things that were promised
I know I let you slip away
This is the hardest thing I have to say
Even if I find the words
Find the way, I just can't come up with one more lie
Even if we tell ourselves it's over
There's no easy way to say goodbye
Looking for a way to justify it
But coming up short fo things to say
I always thought we would stay together
Till my love changed
Maybe if I did you different
Maybe you'd still be in my life

But we both know that I didn't do you right
No, even if I find the words, and find the way
I just can't come up with one more lie
and even if we tell ourselves it's over
There's no easy way to say goodbye,
say goodbye, say goodbye

Ooh baby, ooh even if I (find the words), find the way
I just can't come up with one more lie
Even if (we tell ourselves it's over)
there's no easy way to say goodbye
I wanna be loved, ooh yeah
I wanna be, wanna be loved by you
Ooh, I wanna be loved, ooh darling
I wanna be loved by you, oh yeah
