Meet me in the playground at a quarter to four  
Wait till everybody's long gone  
There might be somethings we could explore  
Hey, baby maybe I could walk you home  
When it starts to rain we can take some shelter  
I'd like to hold your little hand, ooh  
My head is spinning like a helter skelter  
We'll get to know each other if we can  
She said, "Hey, wait a minute, hold on"  
She said, "Hey, just a little bit, hold on"  
Whenever I try to feel, what it feels like it feels for the  
first time  
Is it really such a thrill  
She said, "Look boy, but don't you touch"  
That ain't much it's only a Schoolboy Crush  
Gotta keep this secret, I can't take no chance  
Don't want nobody else to know  
There is nothing wrong with trying to start a romance  
We should take it nice and slow  
If we play it cool (play it cool) it will be all right  
Don't let the teacher see us talking, yeah  
But out of school, we can be out of sight  
Everybody gonna think we've just gone walking  
She said, ""Hey just wait a minute, hold on"  
She said, "Hey, just a little bit, hold on"  
Whenever I try to feel, what it feels like it feel it for the  
first time  
Is it really such a thrill  
She said, "Look boy, but don't you touch"  
That ain't much it's only a Schoolboy Crush  
She said, "Look boy, but don't you touch"  
That ain't much it's only a Schoolboy Crush  
ABCDEFGF won't someone talk to me  
It's only a Schoolboy Crush  
Only a Schoolboy Crush  
1234567 all good children go to heaven  
Only a Schoolboy Crush  
Only a Schoolboy Crush
