As the days go by without number
One by One
As the clouds divide I sit and wonder
When our time will come
From the northern lights
To the southern cross
Between the earth and the Milky Way
I must chart my course
As I go by and forth
And I wonder if it ever will change
(Chorus)
Someday
Maybe not so far away
One day
I'll be in your arms to stay
You don't know what I'd give
You don't know how it is
You don't know what I'd give
To Stay
Another day, another night is over
And what have we to show
Another mile, hello, goodbye
There's a million more to go
To overcome my fear
When I'm way up here
I close my eyes and silently pray
And it's too sad a fate
For me to contemplate
All this precious time is slipping away
Chorus
