As I awaken to this dream  
I saw fire rain from the skies  
Blasting from the portals of hell  
Black clouds descending darkly

The northern hills and valleys  
Scorched by Armageddon's hand  
Blackened hills and valleys  
Firestorm consumes all the dead  
All the dead...

Black clouds drive across the face of the sun  
A Blood-red spirit rising eastward  
Chokes on glowing red embers  
Freed by the winds of ignorance

War expands like a pool of blood  
To cover the earth with crimson  
The Gauntlet is smashed into the dirt  
And the standard bearer is slaughtered first  
Spreading like a fever in the night  
Primal hatred infects once righteous souls  
A holy war of attrition embraces death  
And fear is left to brood in the shadows

The credo is drowned out by rocket's red glare  
Belched from silos frothing smoke  
Oh beautiful for spacious skies  
That rained down waves of dread  
Blackened landscape majesty  
Across slash and burned plains  
Black wings's firestorm holocaust

Enfulfs all the dead...
