Something is wrong, baby
Is the feelin' gone, baby
Maybe I need to refresh your mind
Think about the love we shared
Think back to the time we cared
Maybe you can find a reason to be here

Oh, I'm the one who loved you
I'm the one who made it right
I'm the one who was there for you
On those cold and lonely nights

I'm the one who held you
When the world came down on you
And I'm the one who's in love with you
And whose love never stops

In case you forgot
I give love and my love is so good
In case you forgot
I was there when you fell 'cause I care

In case you forgot
I left you satisfied all those nights
In case you forgot
I give love and my love never stops

Where did mine go
(Where did it go)
I never shoulda really let you know
You're about to make a big mistake

Now where do you think you
Find a love at all like mine
Maybe all you're gonna find is heartache

I'm the one who loved you
Yeah, yeah I'm the one who made it right
I'm the one who was there for you
On those cold, cold and lonely nights

I'm the one who held you

When the world came down on you
And I am the one who was there for you
And whose love never stops

In case you forgot
I give love and my love is so good
In case you forgot
I was there when you fell 'cause I care

In case you forgot
I left you satisfied all those nights
In case you forgot
I give love and my love never stops

Where will you go to find someone to love you like I do
You can play anything baby, 'cause you know that it's
true
Sometimes a love like mine comes just once in your life
So you better better take it baby, and hold on tight

In case you forgot
I give love and my love is so good
In case you forgot
I was there when you fell 'cause I care
(You know it's true)

(I was there for you)
In case you forgot
I left you satisfied all those nights
In case you forgot
I give love and my love never stops

(In case you forgot)
In case you forgot
Remember me, hey
Remember me baby, baby

In case you forgot
I was there when you fell 'cause I care
(I was there)
In case you forgot
I left you satisfied all those nights
(I left you)
