[Intro]

Love me right (love me)  
Love me right (come on)  
Love me right (love me right)  
You got to do it to me right.

[Verse 1]

What could take the place of you?  
Nothing in the whole world  
You've been bad boy even though I've been a good girl  
Well the point is I'm in love  
And you're not acting like you should  
You have treated me so wrong  
Treated me bad and that aint good, come on

[Chorus]

Love me right (love me right)  
Make my body jump and shout tonight  
You gotta love me right  
Make me have to say oh me oh my  
You're quite a guy, dynamite  
Love me right, love me right  
Love me right, love me right  
Take me to the highest kind of height,  
You gotta love me right  
Give me all you've got and don't be jive,  
[Unclear], stay the night, love me right  
Love me right

[verse 2]

My friends can see that you are shady, well  
You don't treat me like a lady, uh uh  
I used to ignore that information, about your  
reputation, bad  
But you don't leave me much choice,  
It's been so long since I heard your voice  
Not another night will I  
Let you walk leaving me to cry, come on

[Chorus]

[Bridge]

I aint never gonna love no one who don't love me right  
If you keep treating me wrong you don't love me right  
Don't be jive come on keep love alive, love me right  
We can start real love tonight, come on and love me  
right

Love me right, jump and shout  
Love me right, you're quite a guy, dynamite  
Love me right, highest kind of heights  
Love me right, [unclear], stay the night  
Repeat till fade
