From a deep forest beyond the Alps  
Into Gaul then Italy they leave their mark  
The shouting savage people have no fear of death  
Hordes of warriors launched from the mysterious  
woods

Mob...of the howling

Terrorized Romans retreat to the south  
Roman legionnaires are sent to fight the beast  
Unsuccessful divisions have failed the roman front  
Down the snowy Alps they slid on their shields

Mob...of the howling

The Northmen make their appearance in  
The spring of 102 BC  
The Northmen arrive from the shores of  
The Baltic and North Sea

The tall blond haired warrior  
With the fierce blue eyes has come  
Stripped naked to fight  
Will the Romans survive?  
Small dark haired Romans  
Are destined to die
