Submerged on the waters of paltriness  
Our inert aeons, egest a poignant and  
Glowing element that the waning enjoyment offer us

Behold the elbowed monoliths  
Landward of ancient ones  
Cycloid for those forgotten souls  
Funereal essence involve us  
Can't abide this ecstasy  
The unhollow grace of grief

I'm a gleaming crust  
From the levels below  
It dragged me onto  
This sombrous sojourn

Expect the euphoric irony  
Abrasive vortex of glowworms  
Spectral inner eddy  
An neverending obscurity  
Enter the inauspicious palace  
Place of endless gloams

ORBIS DEORUM NOCTERNARUM  
A sideral kingdom of dirtiness  
Unbridled eyes for elate the inert  
Enlarge my love to the DEATH!
