As your eyes catch the sun
You know that your time has begun
And your heart burns like fire
You know you can't walk so you run

Running with the wind in your hair
Running for your dreams 'cause you dare
Running down the foot of the hill
Yes you believe yeah you believe

When you're feeling like this
Yeah you know you can't miss
You know you're on the top of the world
When you're soaring high above
High on everybody's love
You know you're on the top of the world
Yeah you know you're on the top of the world

Catch the tide coming in
ride it fast while you can and you win
Wave your hands in the air
Let them know
Feel your love everywhere
Everywhere

When you're feeling like this
Yeah you know you can't miss
You know you're on the top of the world
When you're soaring high above
High on everybody's love
You know you're on the top of the world
Yeah you know you're on the top of the world

Don't let them tell you, it can't be done
oh, it's over before it's begun
Carry on, carry on

Running with the wind in your hair
Yes you believe yeah you believe

Yeah yeah yeah

When you're feeling like this
Yeah you know you can't miss
You know you're on the top of the world
When you're soaring high above
High on everybody's love
You know you're on the top of the world
Yeah you know you're on the top of the world

The top of the world (2x)

When you're soaring high above
High on everybody's love
You know you're on the top of the world
Yeah you know you're on the top of the world
