I see the ocean when I look into your eyes
A depth of green I know to drown in it would be nice
A perfect creature born in this imperfect world
I know all of your secrets that you kept untold

Its a magic rite
Dont know black or white

Tension, invisible tension
Strange game between me and you
Ancient, this storys so ancient
Ancient but every time its new

I feel your presence even when youre far away
You are my star at midnight, youre the light of day
You have two faces, youre the angel, youre the beast
I knew your love and now Im falling to abyss

Its a magic rite
Dont know black or white

Tension, invisible tension
Strange game between me and you
Ancient, this storys so ancient
Ancient but every time its new

Tension, invisible tension
Strange game between me and you
Ancient, this storys so ancient
Ancient but every time its new

Tension, invisible tension
Strange game between me and you
Ancient, this storys so ancient
Ancient but every time its new
