It don't take too much to see that you're a keeper baby
I'm not questioning how much I really need you lady
Don't want to feel this way
I'm too grown for playing games
There's something I really gotta let you know
See lately I've being going through confusion in my
head
I can't get no sleep I toss and turn in my bed
Ain't nothing left to do
Gotta walk away from you
Hopefully we meet again and be together

Why'd she have to come right now
I'm just not ready to settle down
If it was another time, if it was another place
We would be together
There'd be no other way
Oh I wish I could stop time
Why oh why
Did she have to be the right girl at the wrong time
Cuz if it was another time, if it was another place
We would be together
There'd be no other way
Oh I wish I could stop time

Some people only get but one chance to fall in love
Just cause I am not ready don't mean I'm giving up

I'm holding on til the day that we cross again
And if it's meant to then be I'll be ready
I've never been so close yet so far away
Don't think I'm tripping
Cause I know it has to be this way

Why'd she have to come right now
I'm just not ready to settle down
If it was another time, if it was another place
We would be together
There'd be no other way
Oh I wish I could stop time
Why oh why
Did she have to be the right girl at the wrong time
Cuz if it was another time, if it was another place
We would be together
There'd be no other way
Oh I wish I could stop time
