model
she's super model

she's super model
love the walk the talk the trance
she's super model
love up in the disco dance
intoxicating, captivating, i'm impressed
she like the girl in all my dreams
and i'm obsessed

(chorus)
hey sexy lady come up out that magazine
hey sexy lady jump into my limousine
drive me crazy
drive me wild
misbehaving
i like your style

you're my fantasy
im just trying to make you my reality
so that i could love you how its supposed to be
gonna make you mine
cause im too far gone
i just cant leave you alone

shes super model (aaoh) x4

flash, flash
lights, lights
super, super
model, model

disco-co-co
pop a bottle
flash
here today and gone tomorrow
we are focused
lets just get carried away

hey sexy lady come up out that magazine

hey sexy lady jump into my limousine
drive me crazy
drive me wild
misbehaving
i like your style

you're my fantasy
im just trying to make you my reality
so that i could love you how its supposed to be
gonna make you mine
cause im too far gone
i just cant leave you alone

shes super model (aaohh) x4

you're my fantasy
im just trying to make you my reality
so that i could love you how its supposed to be
gonna make you mine
cause im too far gone
i just cant leave you alone

shes super model
