Pass that blink, slow down, think  
Passing ink, hold up, think  
Passed had link more like clink  
Pass that ink, hold up, think

Iâ€™m trying to get us alone,  
Donâ€™t remember which road Iâ€™m on  
Itâ€™s been impossible where I come from  
And Iâ€™m trying to remember  
I donâ€™t care about whoâ€™s done me wrong  
Only calm is gonna get that done  
I just need to get back what I owned  
Iâ€™m trying to recover

Why you still sitting, better get up off yourself  
With all that talent you got  
I said I got a pool full of issues  
And itâ€™s drowning me  
Pool full of issues and itâ€™s drowning me  
Take up every morning, push that shit off of your chest  
Well youâ€™re telling me youâ€™ll never forget  
For now I got this pool full of issues and itâ€™s drowning  
me  
Pool full of issues and itâ€™s drowning me

Pass that blink, slow down, think  
Passing ink, hold up, think  
Passed had link more like clink  
Pass that ink, hold up

Now Iâ€™ve been trying to give up so long  
I really thought that I was done  
But without losing how we were  
I gotta get back to where I belong  
Iâ€™m just tryina find my way back home  
And I know Iâ€™m gonna get it done  
I gotta make myself remember

Why you still sitting, better get up off yourself  
With all that talent you got  
I said I got a pool full of issues

And it's drowning me  
Pool full of issues and it's drowning me  
Take up every morning, push that shit off of your chest  
Well you're telling me you'll never forget  
For now I got this pool full of issues and it's drowning  
me  
Pool full of issues and it's drowning me

Pass that blink, slow down, think  
Passing ink, hold up, think  
Passed had link more like clink  
Pass that ink, hold up, think

Now I can pack it all in  
That don't make no goddamn sense  
Look at where the hell you've been  
People sell their lives for that  
Cross the world and back again  
People really fuck with me  
Now I can throw the towel in  
That won't make no goddamn sense  
I can just quit this shit  
That would just be disrespect  
Giving this kid can't take it from me  
I've been there too long, I gotta keep telling myself

Why you still sitting, better get up off yourself  
With all that talent you got  
I said I got a pool full of issues  
And it's drowning me  
Pool full of issues and it's drowning me  
Take up every morning, push that shit off of your chest  
Well you're telling me you'll never forget  
For now I got this pool full of issues and it's drowning  
me  
Pool full of issues and it's drowning me

Pass that blink, slow down, think  
Passing ink, hold up, think  
Passed had link more like clink  
Pass that ink, hold up, think
