

Avett Brothers "Dancing Daze"

Visit "[Dancing Daze](#)" on MotoLyrics.com

I've seen the way you deal with things
The troubles that this life will bring
If it gets to you then I can tell by the way you sing
You act like it just doesn't mean a thing

I see you dancin all your, dancin all you, dancin all your
daze
Maybe you can tell me how it is you got that way
Dancing all your, dancing all your, dancing all your
daze
Come on, come on there's got to be a way

There's all these things that get me down
This dirty world is full of clowns
They'll build you up just so they can knock you down
Laugh at you while your there on the ground

But not you.
I see you dancin all your, dancin all you, dancin all your
daze
Maybe you can tell me how it is you got that way
Dancing all your, dancing all your, dancing all your
daze
Come on, come on there's got to be a way

I really like the way it feels
I look at you and it's real

I see you dancin all your, dancin all you, dancin all your
daze
Maybe you can tell me how it is you got that way
Dancing all your, dancing all your, dancing all your
daze
Come on, come on that's got to be the way
