It must be winter in my heart  
There's nothing warm in there at all  
I miss the summer and the spring  
The floating yellow leaves of fall  
A million colours fill my eyes  
The roman candles and the stars  
Calendar says July 4th  
But it's still winter in my heart  
They say flowers bloom in Spring  
Red and gold and blue and pink  
They say seasons turn in time  
Theirs are changing  
Why won't mine?  
It must be winter in my heart  
There's nothing warm in there at all  
I miss the summer and the spring  
The floating yellow leaves of fall  
The air in there is frigid cold  
I don't know what the reasons are  
Calender says August 1  
But it's still winter in my heart  
They say flowers bloom in Spring  
Red and gold and blue and pink  
They say seasons turn in time  
Theirs are changing  
Why won't mine?  
It must be winter in my heart  
it must be winter in my heart  
It must be winter in my heart  
It must be winter in my heart  
I don't know what the reasons are  
It must be winter in my heart  
It must be winter in my heart  
It must be winter in my heart  
I don't know what the reasons are  
It must be winter in my heart  
It must be winter in my heart
