

## Arjun Kaul "Shining Armour"

Visit "[Shining Armour](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Commander of legions abominable mastermind  
My genial plays live on like a slow plague on my foes  
Mystical find the ancient truth never known  
Needing nothing from none... ice my home wind my  
one friend

Archer of the Gods my weapons are celestial  
My wheels run by the spectral steeds of thunder  
My will beckons me scream vengeance unleash hell  
Harbinger of doom fist of death incarnate

Born with rawhide of steel in the age of icy winds  
Mane of dark fires and gleaming eyes see within  
Tireless searching heart brings forth a new beginning  
Shooting arrows of destiny to the future

Slaying hordes with my flaming fists of fury  
Fearless warrior lonestar swims the oceans  
Master of my Fate Helpless to conquer all  
Immortal hero razing the horizon

Gleaming shields mounts with black manes and  
firebreath  
Crunching bones and smashing heads with my bare  
hands  
Standing naked in the snow over the monster  
My mind unshakeable my will is absolute

Nay there be nothing to fear  
As long as I am here  
We will win we wont surrender

Sleep tonight my dear  
There is nothing to fear  
You will never be forsaken

When in the demons lair  
No we wont show no fear  
I am never gonna give in

Till the very end  
They may break but I will not bend

In the darkest hour you feel a surge of power  
By God I am here your knight In Shining Armour

You'll see that there's no fear  
I'll be your prince again  
Hang on I'll can just be there  
You'll find your wings again

You'll find your ways of love  
You'll be a prince again  
You find your eyes are burning  
You'll find your wings again

I walk in to your kingdom  
I visor all of the swine  
Behold the folk seething in fear  
As their evil tyrants dine

I he who knoweth the riddle of jee  
I he who was born to free  
Immortal hero... who never dies  
Courage Valor strength Sacrifice

I'm a slayer of demons born from age to age you see  
In my sarcophagus of solitude I Summon forces of the  
universe,  
To invoke the magic in me My friend, truly make the  
most of your intelligence beauty courage and skill  
It is upto you, to forge your destiny, in the flames of  
your will  
As long as you hold desire in your heart the world will  
bring you down You will be tormented, like, a porter  
carrying a load...  
Give up desire, let it go, bid adieu to ego and  
expectation and you shalt be free  
Hear them calling me... hark at the sirens of war  
Hear them calling me... the angels in the heavens...  
Singing my name  
I am the God of War  
Unaffected Resurrected  
I'm Intense Melodic Brutal and Crushing  
Demonic Will with an Angel's Heart  
Immortal unchanging  
An astral blast from light years away  
Secret raider who seeps within takes control  
Running for the Lord... Sent from Hell... Driven by the  
Devil himself  
One man against a million. Fearless. Shameless. A hero  
is immortal...  
A hero never dies... living forever in valhalla

If I could step into the ladle of creation  
... for just one second
