I wanna tell you bout the summertime
About this girl and how she blew my mind
I wanna tell you bout how it feels
To be in love

I saw her eyes and I saw her face
Man that's all it took and I was in outerspace
I wanna tell you bout the hand
That I've been dealt with love... oh yeah

I'm talking bout love
I'm talking bout love
I'm talking bout love
I'm talking bout love

I wanna live in the summertime
Don't wanna leave my love behind
I wanna find out all the things about love
I wanna have you in my life
I wanna feel your hands in mine
I wanna find out all the things about love

And now the times have already changed
My baby's left me and she's gone oh so far away
Baby I know what it means to be alone... oh yeah
And even though I'm all by myself
I don't wanna live with nobody else
I'm gonna wait for the summertime and for your love

I'm (waiting for) talking bout love
I'm talking bout love
I'm talking bout love
I'm talking bout love

I wanna live in the summertime
Don't wanna leave my love behind
I wanna find out all the things about love
I wanna have you in my life
I wanna feel your hands in mine
I wanna find out all the things about love

(Drum solo)

(Guitar solo)

I wanna live in the summertime
Don't wanna leave my love behind
I wanna find out all the things about love
I wanna have you in my life
I wanna feel your hands in mine
I wanna find out all the things about love
